options

"Gather together in one place for a common purpose."

Assymble provides the maximum comfort and flexibility in a modular lounge product that spans from single chairs, 2-seaters and 3-seaters, to inside and outside corners of 30°, 45° & 90° to one, two and three seat benches. With the extensive product line it is easy to create a unique combination to fit any space. Tables are a combination of upholstery bases and rigid thermofoil tops and have power or data options to offer comfortable and convenient work and charging stations.

The Assymble construction features a multi-ply hardwood frame and heavy gauge steel springs in the seats and backs. All models were engineered with a ganging feature to allow for easy grouping. Assymble offers two arm style options with a choice of upholstered arms, urethane or wood arm caps, along with the option of tablet arms.
