

## Soft Luxe™

---

### Seat Cushion System with Bolsa™ Coils

La-Z-Boy Healthcare presents a new addition to the Soft Luxe™ family, a unique design of quality comfort unlike any other furniture cushion fillers. It is constructed of high-density fortified steel springs encased in fabric. This provides a long-lasting cushion with maximum comfort.

When compared to normal seat foam:

- Up to 21% less seat cushion breakdown with pocketed coil seat cushions over the life of the product.
- Top and sides are wrapped with 2.6 (HR) High Resiliency foam.

#### Engineered for Value

The Bolsa™ coils are specially designed springs which are stress-relieved to improve resiliency and performance and extend furniture life. As a result, this cushion design provides 21-percent less breakdown from use than traditional foam seat cushions.

#### Durability and Support You Can Feel

Each Bolsa™ coil flexes independently and adjusts instantly to optimize body contouring and support. The barrel-shaped coils offer initial luxurious softness, followed by firmer support that responds to applied weight. The design of our fabric-encased coils works to maintain structural integrity while offering the highest support and comfort available. Pocketed coil cushions are more resilient than foam, providing as much lift force when load is removed as when load is applied.
