

Why Specify or Purchase Knú | La-Z-Boy Healthcare?

Designed to Help Prevent Bacteria Growth

Infectious disease control is an issue. In fact, infections are one of the leading causes of death in the United States. How do we do this?

- Design the product so that it can be thoroughly cleaned.
- Allow easy access to the parts of the furniture where fluids can migrate. La-Z-Boy recliners offer easily removable seats and backs for thorough cleaning.
- Internal access provides visual confirmation that places where bacteria can hide and grow have been thoroughly cleaned and disinfected.

Less Down Time When An Accident or Abuse Occurs

- If a back or seat is cut or torn, it can easily be replaced in the field. Many of our customers keep a few extra seats and backs in inventory for such issues.

Comfort and Long-Term Support

- LiquiCell Technology is built into the seats
- Spring suspension in seats and backs help maintain shape longer
- Patented mechanism design creates an open angle seating position, allowing the spine to expand and reduce pressure on discs.
- Infinite adjustable backs lock in any positions from upright to fully reclined.

Safety and Stability

- Breakaway Foot Rests
- Fold down or removable arms for safe patient transfer
- Slide-out foot tray for safer entrance and exit
- Balanced even in the most reclined position, including Trendelenburg
- Chair frame is supported by the mechanism. All the weight in the chair is transferred to the steel mechanism component, so that the steel mechanism is supporting the weight instead of the frame.
- Warrantied to 600 lbs | Bariatric to 750 lbs

Aesthetics

- Complete product offering that will coordinate throughout a facility

Intuitive Design

- Easy to operate :: Less time staff is being called to assist a patient or family member to assist in the operation of furniture. Max sleepers and sleep chairs are the perfect example.

In-Service Training

- After our products are delivered, we will commit to working with your staff to ensure that everyone is comfortable using our product.
- Demonstrations to nursing staff and environmental services staff

Value

- Limited Lifetime Warranty
- Free Freight on All Orders of \$1,000 or more
- Financial Stability
